# Hijacking Google...

This Report reveals a fast way to “hijack” Google by bypassing regular SEO methods.

Using this method you can get rankings on the first page of Google for competitive search terms in 24-48 hours. Let me start with some examples...

When you search for a competitive search term like “dog waste removal service long island” the advertisers are paying \$2 to \$6 for a single click...

**Pet waste Removal, Nassau And Suffolk County, Long ...**  
www.poopiehunter.com/ ▾  
Poopie Hunter Dog Waste Removal Provides Dog Waste Cleanup and Pet Waste Removal for Suffolk, Nassau on Long Island, New York.

**Dog waste removal keywords where advertisers are paying \$2-\$3+ per click...**

**Around position 7 with just one article...**

With just one article without optimization we got to around position 7 for this highly competitive keyword phrase. You can do this as many times as you like to grab as many front page rankings as you'd like.

This method also helps to push your competition off the first page of Google.

This same article ranked for other keyword phrases like “long island pooper scooper service” and “long island dog waste service”...

**Minesweepers Dog and Pet Waste Removal and Pooper ...**

## Renting Out Ranked Articles...

With this first method you're targeting location based keyword phrases that have high value to businesses.

You can rent out these high ranked articles to those businesses for \$25 to \$500 a month each.

That makes this method a very powerful way to rank and profit if you're doing anything with local clients.

## Profiting By Promoting Affiliate Products...

I recommend you promote higher priced affiliate products because it's the same amount of effort promoting \$10 products but you usually make more commissions when you promote \$100 or \$200 products.

Below you can see this method has got us to #1 promoting a \$500 course with the lucrative search term "PPC tactics course"...

Zero link building was done to outrank Coed.com a monster website with Google page rank of 6 and huge authority.

## Why Do We Rank So High...?

This is just some of the distribution we get using our NxGen PressRelease distribution service...

By getting your NxGen PressRelease onto these high authority news sites that Google trusts and people trust we're getting serious rankings and quality traffic.

## It's Easy To Get Started Using "The NxGen PressRelease" Solution

Your NxGen PressRelease title is keyword optimized in various ways for viewer appeal and for SEO reasons which we explain in further detail.

You can have your NxGen PressRelease written and published quickly and get a report back of every site your press release was published on...sites like the Boston Globe, Buffalo News, Fox News station and many, many more...

The image shows a comparison of two pricing plans on the PRweb.com website. The 'Premium' plan is highlighted with a red 'Best Value' badge. A red callout box with a white background and red border contains the text: 'PRweb.com's premium distribution service gets the same coverage as the NxGen PressRelease...but it costs \$369 for 1 press release...'. A red arrow points from this callout box to the '\$369 per news release' price tag. The 'Financial' plan is priced at '\$499 per news release'. Both plans have a 'Get Started' button.

Plan	Price
Premium	\$369 per news release
Financial	\$499 per news release

A PRweb.com press release at \$369 pricey and is a serious barrier for many people. People do make profits even at this cost and somewhere around 1,000 people use Prweb.com's premium service for the simple reason that it's effective at getting traffic online. It works because your content ends up on the trusted news channels.

HOWEVER, the good news is what I have for you today is a lot cheaper. And, as I review with you the NxGen PressRelease system you'll see a whole different range of ways you can incorporate a NxGen PressRelease into your marketing strategies.

You've probably already thought of many different ways you can use the first page rankings and traffic you can get this way to generate more profits for your business. Remember this method works because your content lands on authority news sites that people trust.

## Get Page 1 Rankings...A Flood Of Targeted Traffic And Over 200 White Hat Backlinks From High Traffic, High PR Websites
